Near, Distance and Self Viewing Solution

The ClearNote+ is a powerful near and distance viewing solution, with a robust, portable and user-friendly design. View the white board during a meeting; take notes from a lecture; read printed reports; while simultaneously accessing information on a PC. Additionally, the self viewing option of the ClearNote+ is the perfect solution for make-up application and grooming.

Standing above in the marketplace, with an 18X optical zoom camera, the ClearNote+ offers superior functionality and image quality. As a standard with all Optelec electronic video magnifiers, the ClearNote+ offers contrast and brightness controls. Personalize your needs for optimal viewing comfort. To make viewing at any distance easy, the preset functionality remember the user preference. Simply rotate the device to your viewing needs and the camera does the rest.

As an added benefit, the ClearNote+ makes it easy to store images on the PC. Use the quick key strokes or the standard computer short keys to store images to view at a later time. As an additional feature, reading becomes effortless with the reading lines and windows. The six hour rechargeable battery and Plug n' Play technology provides confidence to read anytime, anywhere.

Combining near and distance viewing with power and functionality makes the Optelec ClearNote+ the ideal choice for the classroom, office and home.
