

NEW!

Optelec Compact Touch HD

The first of its kind to offer touchscreen technology, the Optelec Compact Touch HD allows you to stay connected by reading letters, newspapers or your favorite magazine unlike any other low vision aid. This unique portable video magnifier offers High Definition image quality, multiple reading and writing positions, and an easy-to-use, intuitive touchscreen display.

Simply adjust the magnification, select your preferred high contrast color, and pan through snapshots just by swiping your fingers across the 5-inch screen. Designed to use in a tilted position to move smoothly over reading materials or with its foldable handle to view objects close by and in the distance. Plus, connect it to an external monitor or TV for a bigger image, and enjoy it twice as long with the easily interchangeable, rechargeable battery.

Optelec Compact Touch HD

Key benefits

- Intuitive touchscreen to adjust settings by a simple swipe of fingers
- 5-inch full-color High Definition widescreen display with tap-to-focus camera
