## Optelec ClearView C Flex

*The Video Magnifier that Looks like a Monitor*

The Optelec ClearView C Flex is a unique video magnifier designed to improve your reading experience. It is perfect for use at home, office or school. It helps you to keep your desk free and still enjoy the support of a video magnifier. The ClearView C Flex enables you to read documents, do hobbies or work with your PC.

Thanks to its superior camera, the ClearView C Flex offers sharp magnified images in full color and high contrast. The High Definition models offer a very wide overview which makes reading large documents and magazines a breeze. The Speech version allows you to simply sit back and listen to text as it is read aloud.

## Choose the ClearView C Flex that best suits your needs. We can help you get started today!

### Step 1: Choose a monitor size

- 22" Monitor
- 24" Monitor
- 24" Speech Monitor
- 24" TwinView Monitor

### Step 2: Choose a camera model

- Standard Definition  
(Magnifies 4X- 75X)
- High Definition  
(Magnifies 1.3X- 75X)
- High Definition Speech  
(can only be used with Speech Monitor;  
Magnifies 1.5X- 75X)

When we started to develop the ClearView C, we wanted to introduce an additional solution that takes up less space. After extensive research involving our clients, we came up with a completely new design.

#### Flawless integration

The ClearView C Flex looks like any other monitor. It perfectly blends in with your work environment. Nobody will notice that it is a desktop video magnifier.

#### Freedom of movement

The ClearView C Flex takes up less space on your desk, so you have more working space than with traditional desktop video magnifiers. This allows you to read and work more comfortably.

You can easily adjust the position of the ClearView C Flex.

#### Flexible use

Because of the flexible arm, you can easily put the ClearView C Flex in the position you prefer. Pull it towards you to read your mail or newspaper, or position the monitor further away when you don't need it.

#### Find the optimal setup

The ClearView C Flex is available in several setups, so you can pick the model that suits you best.

- Get ultra bright images with the High Definition model
- Use split screen functionalities with the TwinView model
- Listen to texts with the Speech model
- Switch the Control Pad to use advanced functionalities

Choose the TwinView model to use split screen functionalities with a PC.
