

# ClearView GO

**A powerful, portable desktop video magnifier in a foldable design**

Optelec

Simple and effective solutions for the blind and visually impaired

**ClearView GO offers the same reading comfort, ease of use, and functionality as a desktop video magnifier - but in a compact and foldable design.**

## Use ClearView GO Anywhere

ClearView GO is the ideal solution for people who need magnification in different locations. Comfortably read text and view objects at home, in the office or classroom, and on the go. Its foldable design makes it extremely easy to take the ClearView GO with you, or to store it when you do not need it.

## Crisp and Clear Image

With ClearView GO, you will enjoy a crisp, clear, full-HD image on a 15.6" or 17.3" screen. The monitor is fully height adjustable, so you will always have the right reading angle and height. With the convenient 3-in-1 rotating camera, you can magnify text and objects up close, in the distance, and even look at yourself.

Easily folds for transport or when not in use.

## Key Benefits

- Full HD – 1080p with autofocus
- Video magnifier with large 15.6" or 17.3" screen that easily folds away
- Read text and view objects up close, in the distance and view yourself
- Portable – use at different locations: up to 5-hour battery life
- Unique zoom and pan features
- 3 selectable magnification ranges to suit your eye condition
- Connect to TV screen for even larger image with HDMI
- Read full pages without moving reading material using the moveable camera
